In this graduate certificate program, you will learn how global companies manage the flow of goods and services to maximize their competitive advantage. The skills acquired here will prepare students to work in Canada's import and export economy, where supply chain knowledge is in high demand.

Program Highlights

- Learn to oversee, synchronize, and manage every step of the supply chain, from raw material to consumer consumption.
- Take a comprehensive 60-hour Customs Management course, not offered at other Ontario Colleges.
- Understand strategic planning, resource allocation, inventory management, and more, assets to any company that wants to remain competitive on a global scale.
- Take part in applied research projects, international case study competitions, and trade-related speaker events with professionals in Canada's robust world of imports and exports.

Why Choose Fleming College Toronto

- Build your future business community with an international classroom and unprecedented access to Canada's bustling business and finance capital, Toronto.
- You can expect innovative course content through traditional lectures, case studies, simulations, guest speakers, and field trips, all supported by faculty from a wide range of disciplines and industries.
- Get access to an extensive suite of support services, such as career services, academic counseling, housing and more.
- Enjoy the benefits of cosmopolitan life, including a thriving job market, cultural diversity and networking opportunities.

Minimum Admission Requirements

- Undergraduate degree or minimum 2-year Ontario College diploma.
- IELTS 6.5 with no band less than 6.0 or TOEFL 88 with no score less than 22

If English is your second language, you will need to provide proof of English language proficiency.

Please contact admissions@FlemingCollegeToronto.ca to learn more about country-specific requirements.

Career Opportunities

Since 88% of companies have a global supply chain, careers are available in a wide variety of organizations and sectors, including manufacturing, distribution, and raw material acquisition. This allows you to choose a career that best suits your interests and needs.

Some career titles include:

- Logistics Analyst
- Customs Analyst
- Customs Broker
- Purchasing Contracts Manager
- Purchasing Manager
- Supply Chain Logistics Manager
- Supply Chain Manager
